Summary of the webinar series

SWE/NOR/DEN/ICE/FIN

Summary, Sweden

- Courses in nature interpretation and outdoor education are being held at relatively many education forms in Sweden.
- Sweden is the only Nordic country where there is a national university based center for nature interpretation, and it supports both nature interpreters and educators.

EXPLORE NORDICS

 **WEBINAR 1 / 5**

 **5.12.2023**

 **ICE 12am-3pm**
SWE/NOR/DEN 1pm-4 pm
FIN 2pm-5pm

Welcome to learn and discuss how training in the field of nature interpretation and environmental education is carried out in Sweden. The Swedish Centre for Nature Interpretation will give an overview of the landscape of training at three levels: systematic, program and professional competence building levels.

Summary, Norway

- Norway's unique nature with mountains, fjords and arctic areas has affected to nature interpretation, as well as Friluftsliv and tourism
- Comprehensive overview of Nature interpretation in Norway (Interpret Norway)
- Interpretation in Outdoor Life (friluftsliv) education

EXPLORE NORDICS

 **WEBINAR 2 / 5**

 **18.1.2024**

 **ICE 12am-3pm**
SWE/NOR/DEN 1pm-4 pm
FIN 2pm-5pm

How do diverse nature relations affect the role of nature interpretation in a country? How does it affect training? These are the underlying questions we explore as we present the educational and training provision on nature interpretation in Norway. Norway is lagging behind some of its Nordic neighbors in nature interpretation research and education. Join to the webinar and share your insights with us as we seek to understand the reasons behind this.
